Hullbot Pty Ltd

Suite J, Sydney Superyacht Marina

2 Maritime Court, Rozelle

NSW 2039

To Whom It May Concern,

It is with great pleasure that I strongly recommend Nestor Morales as a robotics engineer. Nestor worked at [Hullbot](#) from October to November 2019 directly working in the development of an underwater hull-cleaning robot. During this time, I was Nestor's supervisor.

Nestor is a dedicated, motivated and enthusiastic engineer. Throughout his time at Hullbot, he worked on challenging and loosely defined research and development projects within the company. His eagerness to learn and expand his skill set meant he was resourceful in using his own time to further his knowledge of our product and company. He recorded valuable documentation, interrogated unknowns and easily absorbed the information. He is capable of working independently and efficiently but also asks intelligent questions when further information was required. He is smart and organised and this came across in all his work, both individually and with the rest of our engineering team.

Beyond his technical capabilities, Nestor's excitement, friendliness and positive energy makes him a valuable asset to any company. He is able to quickly adjust to different work environments and personnel.

Please do not hesitate to contact me if there is any other information that I can provide.

Sincerely,

A handwritten signature in black ink, appearing to be "KW".

Karl Watfern

Co-Founder, Director
